BREAKING NEWS!!

We trapped 12 rats who were in mischievous action at the chicken coop. Good thing we have tons of traps in there! Thank you Helen!

Craft Fair ;)

Meet our president/vice president

Audrey Migos

Hi! My name is Audrey and I am your club president. My favorite animal on the farm are turkeys, but my main favorite animal is a sea turtle. I have many hobbies, but my favorites are cooking/baking. I love trying out new recipes and bringing them to school for many people to try! There are so many things to like about 4H but some of my favorites are meeting new people from all across the county and state and sharing what I know about 4H with them! I also love spending time outside with the animals on our farm and raising animals for fair. Feel free to ask me any questions you might have about the farm whenever you see me around!

Eli Gelormini

Hello my name is Eli Gelormini, I am 16 years old, turning 17 in March. My favorite animal is a silky anteater, but my favorite domestic animal is a rabbit. I really enjoy oil painting and gardening. In the club I find the kids very entertaining. The 4-H kids are very excitable, but genuinely they are sweet kids, and I like being there to help guide them.

craft fair

The winter craft fair was a great success! Our booth sold a bunch of goods and made about \$1500. The Fairy house making was a hit!!! I personally really like the wreath making workshop! -Hotaka

Projects and events :)

HOLIDAY PARTY

12/5/2025, Fri

The Holiday party was so much fun! We met up at the club house, and watched the "Muppet Christmas Carol". We also did activities like making a pine cone snowy owl! And of course we had Angela's famous hot chocolate bar! We got to do a gift exchange, and finished the night with, of course, the movie! :) --Hotaka

HALLOWEEN

10/26/2025, Sun

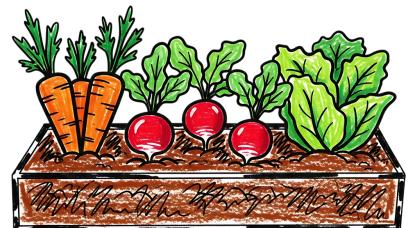

The Halloween party was *fang-tastic!* There were plenty of *spooktacular* games to play, like trying to eat a donut dangling from a string with no hands or racing to suck up M&Ms with a straw and drop them into a cup. There were also lots of *monster-ously* tasty treats for our members to try, including creating our own Franken-floats with whatever toppings we wanted. We even finished off the day with a costume contest and prizes!

--Marcus

CONTEST WINNERS!

GARDENING CLUB

We meet every 2nd Sunday at 11am to learn about plants and do a lot of activities in the garden! We grew beets, tulips and many more. We also did edible painting and made newspaper pots. SUPER FUN to get dirty and bring some veggies back home!

--Hotaka & Taku (Project leader)

ENTOMOLOGY CLUB

The leader of the Entomology club, Milan says "Entomology is a fun and educational project where we learn about the *fascinating* world of insects and other arthropods. This year, we made an ant nest, had a presentation from a Beekeeper, and even eat bugs!

Some of our future meetings might include a mosquito presentation and information about complete and incomplete metamorphosis." If you're interested then you should definitely join the club!!

JOKE!

Why was the cell phone wearing glasses?

-Because it lost all of its contacts!
